[A Guide To Microsoft Office](#)

The latest version of Microsoft Office is called Microsoft Office 2019, although the web-based Microsoft 365 is the version that Microsoft would prefer users to adopt. Various versions of the suite have been around since 1988, including but not limited to Microsoft Office Professional, Microsoft Office Home and Student, and various collections of Microsoft Office 2016. Most people still refer to any version of the suite as Microsoft Office though, which makes distinguishing among editions ...

In Office 365, Microsoft, as the cloud service provider, takes care of the physical security of its datacenters where all of its customers' data are stored. On the customer side, there are tasks a tenant admin can do, such as implementing multi-factor authentication, and actions end users can perform such as email encryption to enhance security. Securing email: In Office 365, you can ...
