The democracy movement in 1989 was a nationwide student movement that spread across more than 60 major cities (and more than 300 including town and county-level cities) all over China. The protests and crackdown in Beijing Tian'anmen were widely reported, but the situation outside of the capital rarely received media attention.

If democracy alone can save the Chinese government, providing it with a new legitimacy to replace the no longer plausible communist one, then only the CCP is capable of steering China toward democracy. That the CCP is indispensable because it has not allowed any other group to acquire the political capacity and experience necessary for governing a country as large and complex as China is not ...

In China, democracy is realized through the system of people's congresses, the system of multi-party cooperation and political consultation under the leadership of the CPC, the system of regional ethnic autonomy, the system of self-governance at the grassroots level, and the practice of democratic centralism. Additionally, China has been advancing the steady reform of its political system ...
