How to Manually Select a Focus Point with your Canon Rebel DSLR Camera. July 20, 2018. Trying to get a camera to focus on the correct object in a photo has always been a challenge for many people. This is especially true as they move from the very beginning stages of photography to the more amateur stages. In the beginning, many folks simply point and shoot from a distance. As they move ...

T2i front focusing Jun 12, 2010 Obviously the Rebel line does not feature AF micro-adjust. So, with this class of camera, should we expect a degree of inaccurate auto focus when using fast lenses wide open? For instance, here are examples using the EF 85mm 1.8 on the T2i. (I was hoping Canon lenses may co-operate better with the body than third party offerings). Red box denotes AF focus point ...
