Well before most of us started to pay serious attention to the nuclear threat from North Korea, author Doug Norton had already imagined the worst. CODE WORK: PATERNITY, published in 2012, is a frightening tale of nuclear terrorism carried out by the rogue nation in collusion with Islamic extremists seeking to avenge Bin Laden's death. Norton is a retired U.S. Naval officer with substantial experience in diplomacy and politics related to nuclear deterrence. He expertly weaves an ...

These days Doug Norton is into grandfathering, writing the next novel in this series, volunteering, and sailing. But there was a time . . . As a naval officer throughout most of the cold war, Doug had personal experience with nuclear weapons, both as objects of diplomacy and politics and as objects under his command responsibility--antisubmarine missiles that he might have to launch under cataclysmic circumstances. That life journey, plus research, allows him to craft Code Word:Paternity ...

A scientific trail scented by an ultra-secret U.S. program hidden for years behind the code word "Paternity" points toward the nation that made the bomb. But there's no smoking gun. Struggling to lead a divided, panicked America, wring support from uncertain allies, and blunt the opportunism of rivals, the president faces an ethical dilemma threatening his marriage, his presidency, and his very soul.
