Indian Society is in a flux. Old equilibrium is disturbed. While traditional legitimacy to the embedded is a thing of the past, present does not seem favourable to the wretched on the earth. Process of growth seems to have thrown in its wake stresses and strains that are in need of reconciliation. While western models of growth have been rendered unimpressive to the problem of the developing ...

'Change' refers to something that is obviously different from what occurred previously. Change in history usually occurs over a long period of time and it is often hard to pin-point an exact moment of change. Therefore, it is easier to choose two different moments in history and compare them. For example, comparing 2nd century AD with the ...

Gender roles and the status of men and women is a part of the social and cultural continuity and change among India. Men in India are frequently recognized to be more superior to the women. Gender roles within India are considered to be backwards in contrast to many westernised societies. Women are often to be seen as a nurturer and less educated than men. Once the women become married their ...
