In case of emergencies your little medicinal herbal garden would always stand besides you – for example, my mother was lucky enough to have aloe vera at home garden because I got burnt by the heater and during the cold nights there was no one to take me to doctor. Well, now you must check out the simplest yet effective medicinal plants that must be there in the garden:

[Designing An Herb Garden - Herbal Academy Blog](#)

Like any container-grown plant, herbs need a fast-draining potting mix to provide oxygen and prevent root rot. Garden soil just won't cut it as it is heavy and compacts when used in containers. Look for a premium or professional mix that includes ingredients such as perlite or vermiculite to help loosen and aerate the final mix. I usually start with a high-quality potting mix, then add ...
