[MATLAB Programming for Engineers | Professional and...](#)

The sixth edition of Chapman's MATLAB Programming for Engineers teaches MATLAB as a technical programming language with an emphasis on problem-solving skills. Students learn how to write clean, efficient, and well-documented programs while gaining an understanding of the many practical functions of MATLAB. The first nine chapters support and provide a primary resource for today's introduction to programming and problem solving course for first-year engineering students.

The first text of its kind, Stephen Chapman's best selling book on MATLAB has now been updated to reflect MATLAB 6.0. The first edition has been highly successful in engineering schools where introductory programming is taught using MATLAB rather than a traditional programming language. Although C, C++, and Java suit the needs of computer science students well, most engineering students will ...
