Sontag's most important critical writings from 1972 to 1980 are collected in Under the Sign of Saturn. One of America's leading essayists, Sontag's writings are commentaries on the relation between moral and aesthetic ideas, discussing the works of Antonin Artaud, Leni Riefenstahl, Elias Canetti, Walter Benjamin, and others. The collection includes a variety of her well-known essays.

Under the Sign of Saturn feels a bit darker than some of her other books I've read, in so far as a lot of the essays focus on (both directly and implicitly) fascism and its broad appeal and continued resonance in the arts and culture of the post-war era. I think the best thing I can say about these is that even when you have no exposure to the works of people she writes about (I for one don't ...

Susan Sontag is "highbrow." Her essays have scope and intellectual ambition, which readers who have an allergy to these qualities may find "pretentious." She can almost mercilessly point out when something is derivative, weakly conceived, or a sell-out. She has a commitment to cinema as High Art; she takes the contemporary novel to task for being complacent and reactionary; she has a particularly sharp eye for intellectual fraud. Readers who are only interested in marching under one banner ...
