So, I recently read this book titled "World Without Fish" by Mark Kurlansky. As the title suggests the book is about the possible extinction of fish species. Kurlansky has written many novels regarding the quality and quantity of the oceans. This novel however is different from the others in that his main audience is smaller children (ages 9+). He hasn't specifically announced the reason ...

[Webquest - World Without Fish - Home](#)

In chapter nine of A World Without Fish, Kurlansky informs the reader of why pollution is causing fish populations to shrink. All human activity affects marine life, and sometimes in bad ways. There are areas of the sea called dead zones created by pollution where fish cannot live. Very large amounts of petroleum have been accidentally spilled into oceans over the past century. "Oils sinks ...
